# Welcome back to School after the Winter

“On 10th March 2026, the school reopened after the winter vacation for Classes 1st to 6th, while the Kindergarten section reopened on 16th March. The teachers and the Founding President, Meymey Pierre, warmly welcomed the students back to school. Later, programmes were organised to entertain the students and help them readjust to the school routine, as schools in Ladakh remain closed for three months during winter due to harsh weather and heavy snowfall, which often blocks access roads. Overall, March remains mostly grey, with occasional snowfall, and temperatures staying below zero.”

# Winter Vacation Home assignment

“Students showing their winter home assignments, which will be awarded certain marks that will be added to their final examination scores.”

# March Activities

“From left to right: classes are being taught in open spaces under sunlight, as the classrooms are too cold. In the second picture, students are waiting for the school bus. In the last picture, a kindergarten student is being welcomed on his first day of school.”

“Thank you for your patient reading. See you in the next report, covering April—a warmer month with more outdoor activities.”
